

WORKSHOPS

Green woodworking

For two days, we will devote ourselves to green woodworking! It's a traditional Swedish technique but our inspiration will be from new designs. Who doesn't need a Spork or a carved table tennis racket?! While we are carving we will also be learning about how to choose the right wood to carve and how best to take care of our tools.

Sheepskin Mittens

The Nordic countries have long traditions in making sheepskin wear. This course/workshop will introduce you to sewing in sheepskin and you will be able to sew your own sheepskin mittens using a pattern customized for you. You will learn to cut and sew in skin. The mittens can be finalized with decorations according to your own preference.

Tablet weaving

In the workshop, participants learn setting up the warp threads through the tablet holes, weaving and reading the pattern schemes. The course will begin with a short historical introduction of the Nordic tablet weaving traditions. The participants can choose simple patterns from different countries. As a result of the course, a key chain and a full size belt are made. This workshop is suitable for beginners.

LED LAMP

The lamp is made of handmade paper and wire mesh, which is dipped into paper mache. The LED lamp is lit by a USB cable.

Sew your opinion

...few stitches – lots of words...

Make a statement on some second hand fabric or on your own clothes! You will only need a few types of stitches, a needle, colorful thread and words of your choice.

Knit a lopi swether

Attending this workshop, you will learn to knit an Icelandic Lopi sweater. The Lopi sweater is characterized by a circular yoke with a pattern and the Lopi, the special Icelandic woolen yarn. The participants will knit a sweater fitting a 2-year-old, however the skills you acquire will enable you to knit a Lopi sweater in any size. You can choose your own pattern and colors within the Lopi traditions. While we knit we discuss the current and the early Icelandic knitting traditions. The workshop is suitable for participants with some knitting experience.

Woodturning

To turn objects in wood is a technic known all over the world. Attending this workshop you will work with Nordic wood like birch, willow and ash tree. The participants will be introduced to different techniques. You will be able to make subjects like bowls and cups. The workshop fits both beginners and more experienced participants.

Sew and decorate a detachable pocket

This workshop invites you to sew a detachable pocket! The pocket will fit the necessary sewing supplies, your phone, or what you might need when you are engaging in your creative activity. The pocket is easily attached to your belt or waistband. You can even adjust the pocket to make it more versatile, for instance for use as a regular purse.

Sew a skirt

This workshop invites you to sew your own skirt! Choose between sewing a pencil skirt or a pleated skirt – the instructor will bring different fabrics to choose among. You will learn how to take measurements, how to adjust the pattern to your own measurements, to mark and cut the fabric and to the sew pleats or darts. Every participant will have a sewing machine to their own disposal. The workshop is suitable for both beginners and more experienced participants.
